

Community Cultural Enrichment - The Rain Forest is Coming!

Snakes, jungle cats, and monkeys - beautiful parrots, macaws, amazons, cockatoos, and greys from around the world. It's all coming to Scituate! We are not talking puppets here. This is the real thing. Arrangements have been made for an appearance of Understanding Wildlife's "Live on Stage, The Rain Forest" to appear in our community. This will take place at Jenkins Elementary on Tuesday, February 7th. Understanding Wildlife is a non-profit organization that travels from California to Massachusetts with this incredible rain forest program.

Animal trainers will present during the day to all students at Jenkins and Hatherly. They will explain how energy conservation and recycling will help save the beautiful animals the children are seeing, and other ways we can all help save our rain forests will be covered. Then at Jenkins school at 5:30 and 7:30 PM a wildly entertaining program will be put on for our entire community. Flying macaws, talking amazons, and very mischievous monkeys will keep you entertained all night long.

The cost of the program is \$5.00 per person. Children under three years old are admitted free. All children must be accompanied by an adult. Plan now to attend. This event will be enjoyed by the entire family!
